Total Templates Applied: 6

Total Monitors Applied: 102

Duplicate monitors highlighted in red if any exist.

Monitors Applied Via Templates

Microsoft Windows 2003 Server

Availability

Windows 2003 Server Down

Windows Events

Logon Failure

Logon Time Restriction

Account Expired

Logon Denied to Computer

Account Locked Out

Dr. Watson Error

Kerberos Ticket Retrieval Error

Performance Data Collection Time Out

Duplicate Name on Network Detected

IP Address Conflict

Windows Update Failure

Event Log is full

Service Entered Unpredictable State

Service Or Driver Failed To Start

Service Terminated Unexpectedly

Unable to recreate Share

LDM Cannot read Disk

LDM Disk Group Failed

LDM Volume Not Started

NTFS Delayed Write Lost

NTFS File System Corrupt

Shutdown Unexpected

Event Log has started

Bug Check

Monitors Applied Via Templates

| |
|------------------------------------|
| Checking File System on Startup |
| NTFS Quota Threshold Limit Reached |
| Network Adapter has been unplugged |
| Bad Block Detected on Disk |
| Driver Detected a Controller Error |

Performance Counters

| |
|----------------------------------|
| LogicalDisk % Free Space |
| Memory Available MBytes |
